

## FAA Discusses UAS in the NAS in the USA at CMA - OMG!

Integrating UAS into the nation's airspace presents both opportunities and challenges. However, everything the FAA does is focused on ensuring the safety of the nation's aviation system. The FAA Van Nuys (VNY) Flight Standards District Office, along with other ATC, Airport, etc. representatives will address the new policies, procedures and approval processes that come from an increased desire by civilian operators to fly UAS in the NAS. This is an on going effort in developing and implementing these new UAS standards and guidance.

**Directions:** Drive In: See Map Link. On the South West end of the Camarillo, (CMA) Airport. West of the CAF & EAA hangars.

Fly In: Park aircraft in front of the Air 7 Hangar. Ask for progressive taxi.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
